Experience

Jan 2022 – Present

Web Designer for Various Clients

Designed and developed end-to-end websites, handling the entire process from problem definition to full implementation.

- Designed and implemented 6+ websites using Webflow or pure code.
- Conducted stakeholder interviews.
- Formulated problem statements and developed solutions including website structure, content, UX, and visual design.
- Presented design solutions to stakeholders.
- Implemented websites using Webflow or HTML, CSS, and JavaScript.
- Managed stakeholder communications and led the entire website creation process.

Sep 2023 – Present

Graphic Designer at Commerce Media Tech

At CMT, I created a variety of graphic materials for diverse products and organizations.

- Designed responsive layouts for website pages.
- Developed graphics and banners for social media, YouTube, email, ad campaigns, blogs, and websites.
- Created illustrations, promotional merchandise, and print materials.
- Retouched photos for various marketing needs.

Oct 2020 – Jun 2023

UI/Graphic Designer and Board Member at University Organizations

At UXberries and the Student Council, I created various interfaces and graphic materials. Additionally, I served as a board member for UXberries.

- Designed 4+ websites and 3 applications for mobile, Apple TV, and Apple Watch for educational purposes.
- Created various graphic materials for social media, promotions, and print.
- Conducted recruitment and represented the organizations at events to acquire new partners and members.
